Customer further agrees to exercise the utmost care and diligence and develop an effective security program to maintain the site in good and safe conditions at all times in order to prevent any injuries to or deaths of NI personnel who work at the site of Customer and to prevent damages and losses to all products delivered by NI that are stored at the site of Customer arising from or as a result of any theft, arson, vandalism, or any other malicious activities of any third party. If Customer will require the disclosure to NI of any such sensitive or export-controlled technology or technical data, Customer must notify NI and receive confirmation in writing by NI that NI agrees to receive such data prior to Customer sending it. Coverage under a Service Program or individual support service does not include any of the following:

- i Service for any third-party software
- ii Service for any third-party development platforms or environments
- iii Recovery or replacement of any Customer data, software, or passwords stored on the Covered Software

5.2 License

Any deliverable, or any code provided to Customer by NI Engineers is subject to the terms and conditions of the NI Sample Code License at ni.com/samplecode/license. This does not include updates or prior versions provided under the SSP.

5.3 Third-Party Products

“Third-Party Product(s)” as used herein means any third-party software that is not licensed under the NI software license agreement. Third-Party Products that NI resells may not be supported by NI. It may be necessary to address any issues with Third-Party Products directly with the publisher.

5.4 Reseller Products

Unless otherwise agreed to in a signed writing by NI, the Service Program begins on the date of the original invoice from NI (or shipment from NI—whichever is later), regardless of whether you have purchased the Service Program directly from NI or through a reseller.

5.5 Transfer Requests

Except as set forth in this Agreement or any signed agreement between the Parties, Customer may transfer a Service Program to another user provided that Customer notifies NI in advance of such transfer. Please note that when Customer transfers a Service, only the entitlement to service transfers; the service data and history associated with the Customer user profile does not transfer. To transfer a Service Program, Customer will need to send an email to customer.updates@ni.com. The transfer of a Service Program can occur a maximum of two (2) times during the Duration. Service Programs purchased with a VLP or EP are not transferrable without NI's prior written permission, which NI may withhold in its sole discretion.

5.6 Restrictions for Engineering Services

Customer may not utilize engineering services for the performance of “defense services” as defined by International Traffic In Arms Regulations 22 CFR 120.9. NI will only perform services based on its understanding and condition that the goods or services (i) are not for the use in the production or development of any item produced, purchased, or ordered by any entity with a footnote 1 designation in the license requirement column of Supplement No. 4 to Part 744, U.S. Export Administration Regulations and (ii) such a company is not a party to the transaction.

5.7 Geographic Limitations and Relocation

Service offerings and Support Programs may vary globally according to the laws and regulations of the country in which the service is sold. In addition, service options, including service levels, technical support hours, and response times vary by geography, and certain options may not be available for purchase at Customer's location. The obligation of NI to supply the services is subject to local service availability and may be subject to additional fees.

5.8 Miscellaneous

This Agreement, including any Support Agreement, any appendices and terms referenced or incorporated herein, constitutes the entire agreement as to the subject matter herein and supersedes all prior or contemporaneous communications or understandings, whether oral or written, between the Parties. If any part, term, or provision of this Agreement is held illegal, unenforceable, or in conflict with any applicable and enforceable law, the validity of the remaining portions or provisions of this Agreement shall not be affected. In such event, the Parties agree to make a good faith attempt to formulate with one another a lawful and enforceable provision to replace the offending provision that, to the extent practicable, accomplishes the intent and objectives of the offending provision. The doctrine that any ambiguity contained in a contract shall be construed against the Party whose counsel has drafted the contract is expressly waived by each of the Parties with respect to this Agreement.

5.9 Changes to this Agreement

NI reserves the right to change the terms of this Agreement without any notification to the Customer, and Customer is bound to accept such changes, when effective. When becoming aware of any change of this Agreement, Customer has the right to raise its concerns to NI in writing within ten (10) business days from the date of such actual or presumed awareness. If no notices are received, it will be deemed that Customer has accepted all such changes without reservation. However, all services purchased by the Customer before such changes take effect will be governed by the terms of the Agreement effective at the time of purchase.
